

Abasianyanga Effiong - Aspiring Data Analyst

I turn raw data into **actionable business insights**. Skilled in **Excel, SQL, and Power BI**, I clean, organize, and visualize data to help teams make smarter decisions.

I recently completed a **Shopify e-commerce project**, building interactive dashboards and uncovering sales trends and high-performing regions (<https://github.com/Abasianyanga>). I'm now actively seeking **data entry or junior analyst roles** where I can contribute, learn, and make an immediate impact.

Key Skills & Impact Areas:

- **Excel:** Data cleaning, pivot tables, formulas, and reporting to streamline workflows
- **SQL:** Extracting, filtering, and aggregating data for actionable insights
- **Power BI:** Interactive dashboards and visualizations to track KPIs and trends
- **Data Analysis & Insights:** Translating raw data into business decisions
- **Data Management:** Efficient data entry, organization, and validation
- **Portfolio & GitHub:** Documenting and sharing real-world projects to showcase results
